Atpco fare filing manual pdf free printable version

Supplementary Customs Tariff under which Supplement records are kept. The following example will be used throughout this manual. AUSA NYCRIC TAFP NYCLON AUSA LONABZ TAFU RICABZ HPX +50.00 HPX 1500.00 HPX +50.00 HPX 1600.00 HS The zone does not define in which Area of the world the complement exists, but defines in which Area of the world the published record must end for this complement value to be used. Construction tariff (also ©m rate, unpublished tariff or construction) The additional tariff is published when combined. 17 Summary 62 Using the Area of Applicability

..... A carrier may use a supplement to increase journeys from internal points without having to establish a published fare from that market. Secondly, "Fare not published in ATPCO" means "Constructed Fare". Each published international tariff has at least one associated additional tariff. 59

Hierarchy of ATPCO construction requirements 67 Miss..... Published rate A published amount for use in the transport price from one city to another. To help clarify µ discussions involving add - ons, it is important to establish a clear basis of similar understanding to help further communication on add - ons. 16 Creating a batch of add-ons In international tariffs, it reflects a value for use between two points as the girÁ© stico with the aim of reaching an international portal. 12 Changing Complementary Records 49 MISSÁ F o
